## Celebration of March Holi

### QUOTE OF THE MONTH:

"The best way to inspire your children to develop into the kind of adults you dream of them becoming is to become the kind of adult you want them to be"-Robin Sharma

Holi is a festival of colours, we all love to celebrate Holi to bring colour through happiness and prosperity in our life. This view of people is followed by us, here in **I Play I Learn**. Our centres celebrated Holi very colourfully and with lot of activities. Warm welcome was given to one and all who participated in the events. We started by playing with 'gulaal', followed by dance on selected theme songs. The celebration ended up with child-centric activities like-palm printing, balloon printing etc.

### Facts on April

The **World Health Day**, is on April 7. It marks the founding of the World Health Organization and is an opportunity to draw worldwide attention to a subject of major importance to global health each year. In 2008, World Health Day focuses on the need to protect health from the adverse effects of climate change & establish links between climate change and health and other development areas such as environment, food, energy, transport.

**Bengali New Year** or **Poila Boishakh** is the first day of the Bengali calendar, celebrated in both Bangladesh and West Bengal, and in Bengali communities in Assam and Tripura. In Assam it is also celebrated as Bihu. It coincides with the New Year's Days of numerous Southern Asian calendars.

Poila Boishakh connects all ethnic Bengalis irrespective of religious and regional differences. In India, in West Bengal and Assam it is a public (state) holiday and is publicly celebrated in mid April.
